

easytest miniRCD

Portable RCD Tester

The easytest miniRCD is Australian designed and manufactured.

WINNER of the

Electronics & ICT Association

2008 Engineering Excellence Award

(Small Business Category)

Instructional videos on our website

www.easytest.com.au

Features:

Simple one button press operation

Microprocessor controlled

Backlight LCD display

Automatically performs a no-trip and

then a 30mA trip test

Automatically alternates testing polarity

with consecutive tests

Mains input polarity testing

RCD trip time testing

Meets AS 61010.031-2004

Meets AS/NZS 3760:2003

 N13497

Electrical Specifications:

Input supply = 240Vac 50Hz

RCD trip time:

No trip test = 13mA +/- <5%

Trip test = 30mA +/- <5%

Time accuracy = +/- 2 milliseconds

Dimensions:

Weight = 700g

Size = 120(L) x 105(W) x 55(D)mm

Accessories included:

Step by step instructions on the back of the unit

Adhesive feet

Sturdy protective storage box
